GYPSY SOUL

ALBUM: *Test Of Time*
LABEL: Cabana Boy/W.A.P.
 (9607)

Another band that takes its Celtic roots and draws them into a more mainstream, pop style is Gypsy Soul. Fronted by vocalist Cilette Swann, the other main force within the band is Raman Marykai, who co-wrote

all the songs with Cilette, handled all the arrangements and even co-produced *Test Of Time*. Gypsy Soul creates pristine, dreamy music that soars with Cilette's exquisite voice.

SUGGESTED SONGS: "Silent Tears"; "Lies."

 "Yes, and it's still going! They're a local band through ADA. Two hundred of their closest friends showed up, and I didn't think we'd sell that many, but I think we sold like 30 the first week, which made the Top 25, then it jumped up to 50, and it's been selling about 20 every week. A little buzz just started to happen. I like to do a lot of local talent and unsigned bands...there was this band Gypsy Soul that we had in here.
